

Dear Federal Communications Commission:

I understand the FCC is considering expanding Low Power FM (LPFM) which may impact current FM translator broadcast service and programming. My family and I are avid listeners of K-LOVE programming broadcast in the Sioux City, Iowa area on stations broadcasting at 107.5, 88.9 and 88.1FM. The K-LOVE broadcasts do an excellent job of servicing residents of our community. We believe there would be a negative impact on quality, family programming were K-LOVE be displaced by a LPFM broadcaster providing different programming. It is so difficult to find family orientated media entertainment with a wholesome message for adult, adolescents and children. We believe the K-LOVE message better serves the Pylelo family and the general public interest than the LPFM alternative. We deeply desire the alternative K-LOVE message to remain available.

Sincerely,

John P. Pylelo
